Azure Data Engineer with 5+ years of experience designing and implementing scalable cloud data pipelines. Skilled in Azure services, data factory orchestration, and performance optimization. Proven track record of reducing manual effort by >85% and improving data reliability through automation. Microsoft-certified across Fabric, Data Engineering, Power BI, and Azure Fundamentals. Also building AI-driven SaaS products — combining LLM pipelines, real-time APIs, and cloud databases to solve real financial research problems.

WORK EXPERIENCE

Data Engineer (Azure)

Bangalore, India

Happiest Minds Technologies

06/2023 – Present

- Partnered with **Sandvik** (Sweden-based mining tools manufacturer) as the primary Azure Data Engineer.
- Built an end-to-end **Data Factory Pipeline** to ingest Salesforce data into **Azure SQL Database**, enabling reliable downstream reporting.
- Authored **Logic Apps** for UAT and Pre-Prod to push reports from Data Lake to Salesforce, automating a previously manual workflow.
- Leveraged **SQL + ADF** to create Dynamic Stored Procedures that update display & sellable fields and push catalog data across **40+ countries** to Salesforce.
- Implemented **automated data quality checks** and error handling within Databricks, reducing manual intervention by **85%** and improving data reliability.
- Applied **SCD Type 2** using PySpark / SQL in Databricks, reducing data discrepancy rates by **90%**.
- Built **Power BI dashboards** covering quarterly & annual sales, region tool performance, and KPIs for executive stakeholders.
- Created **Data Factory Pipelines** fetching nested JSON from REST APIs, normalizing via Dataflow (Flatten Activity), and loading into Azure SQL Database.
- Optimized complex joins with Databricks, improving critical business reporting query performance by **40%**.

Data Engineer (Azure)

Bangalore, India

Tata Consultancy Services

07/2021 – 05/2023

- Built an automated **ADF pipeline** that ingests weekly load from Walmart into the Data Lake — first team member to earn client appreciation for on-time delivery.
- Wrote **PySpark code in Databricks** for large-scale data transformation, improving quality of over **18 TB** of raw data.
- Created **Power BI reports** for near real-time data analysis, reducing manual analysis time by **90%**.
- Wrote an **Azure PowerShell** script to automate daily project tasks, eliminating around **10 hours/week** of manual work.

TECHNICAL SKILLS

AZURE SERVICES

Azure Data Factory Azure Databricks
Azure Fabric Azure Logic Apps
Azure API Mgmt Azure DevOps
Azure PowerShell

DATA & STORAGE

One Lake Data Lake Delta Lake
Supabase SQL Server SQLite

LANGUAGES & FRAMEWORKS

PySpark T-SQL Python TypeScript
Next.js FastAPI

AI & APIS

Claude API Groq LLM OpenAI SDK
REST APIs Prisma ORM NextAuth.js

VISUALIZATION & TOOLS

Power BI Git & GitHub TradingView

EDUCATION

B.Tech — Computer Science

Jabalpur Engineering College

06/2017 – 07/2021

CERTIFICATIONS

- 🏆 Microsoft Certified: Fabric Analytics Engineer Associate (DP-600)
- 🏆 Microsoft Certified: Data Engineer Associate (DP-203)
- 🏆 Microsoft Certified: Power BI Data Analyst Associate (PL-300)
- 🏆 Microsoft Certified: Azure Data Fundamentals (DP-900)

- Used **ARM Templates** to deploy ADF components; built an automated Data Factory pipeline for source-data profiling.

FEATURED PROJECT

FinanceWithAI — FinAI AI · FULL-STACK · SAAS

🌐 finance-with-ai.vercel.app

AI-powered stock research platform combining professional charting with LLM-synthesized fundamental analysis for NSE, BSE, NYSE & NASDAQ.

- ✦ **AI Research Pipeline** — Multi-stage LLM synthesis (Groq / Claude) producing short / medium / long-term verdicts with confidence scores and multi-provider failover.
- ✦ **Live Professional Charts** — Embedded TradingView widget with real-time price, RSI, SMA, MACD, drawing tools, and multi-timeframe view.
- ✦ **Technical Signal Cards** — BUY / HOLD / SELL signals computed from live OHLCV data and rendered below the chart.
- ✦ **Multi-Exchange Support** — Covers NSE, BSE, NYSE & NASDAQ via Finnhub, Yahoo Finance, and IndianAPI.in with an exchange-aware query dispatcher.
- ✦ **Watchlist & Report History** — Save stocks to a personal watchlist; every AI report is stored and accessible from the user dashboard.
- ✦ **Secure Auth** — Email + password sign-up with JWT sessions; all AI and watchlist endpoints are auth-gated with a per-user daily rate limit.
