Azure Data Engineer with 5+ years of experience designing and implementing scalable cloud data pipelines. Skilled in Azure services, data factory orchestration, and performance optimization. Proven track record of reducing manual effort by >85% and improving data reliability through automation. Microsoft-certified across Fabric, Data Engineering, Power BI, and Azure Fundamentals. Also building AI-driven SaaS products — combining LLM pipelines, real-time APIs, and cloud databases to solve real financial research problems.

TECHNICAL SKILLS

AZURE SERVICES

Azure Data Factory Azure Databricks Azure Fabric Azure Logic Apps Azure API Mgmt
Azure DevOps Azure PowerShell

DATA & STORAGE

LANGUAGES

PySpark T-SQL Python TypeScript Next.js FastAPI React

AI & APIS

Claude API Groq LLM OpenAI SDK Prisma ORM NextAuth.js REST APIs Git & GitHub

WORK EXPERIENCE

Data Engineer (Azure)

Bangalore, India

Happiest Minds Technologies

06/2023 – Present

- Partnered with **Sandvik** (Sweden-based mining tools manufacturer) as the primary Azure Data Engineer.
- Built an end-to-end **Data Factory Pipeline** to ingest Salesforce data into **Azure SQL Database**, enabling reliable downstream reporting.
- Authored **Logic Apps** for UAT and Pre-Prod to push reports from Data Lake to Salesforce.
- Leveraged **SQL + ADF** to create Dynamic Stored Procedures pushing catalog data across **40+ countries**.
- Implemented **automated data quality checks** in Databricks, reducing manual intervention by **85%**.
- Applied **SCD Type 2** via PySpark / SQL, reducing data discrepancy rates by **90%**.
- Built **Power BI dashboards** for quarterly & annual sales, region performance, and KPIs.
- Optimized complex joins in Databricks, improving query performance by **40%**.

Data Engineer (Azure)

Bangalore, India

Tata Consultancy Services

07/2021 – 05/2023

- Built an automated **ADF pipeline** ingesting weekly load from Walmart into the Data Lake — first team member to earn client appreciation for on-time delivery.
- Wrote **PySpark code in Databricks** for large-scale data transformation, improving quality of over **18 TB** of raw data.
- Created **Power BI reports** for near real-time analysis, reducing manual analysis time by **90%**.
- Wrote an **Azure PowerShell** script to automate daily tasks, eliminating around **10 hours/week** of manual work.
- Used **ARM Templates** to deploy ADF components; built an automated Data Factory pipeline for source-data profiling.

FinanceWithAI — FinAI

AI · FULL-STACK · SAAS

finance-with-ai.vercel.app

A mobile-responsive web app that gives retail investors institutional-grade stock research — live charts, AI-generated buy/hold/sell verdicts with confidence scores, and a personal watchlist — all in one place, for NSE, BSE, NYSE & NASDAQ.

- ✦ **Stock Search & Watchlist** — Search any symbol across four exchanges; save stocks to a personal watchlist with one tap.
- ✦ **Live Professional Charts** — Embedded TradingView widget with real-time price, indicators (RSI, SMA, MACD), drawing tools, and multi-timeframe view.
- ✦ **AI Fundamental Research** — LLM-generated short / medium / long-term verdict per stock, each with a confidence score, key drivers, and key risks.
- ✦ **Technical Signal Cards** — BUY / HOLD / SELL signals derived from computed technical indicators, displayed below the chart.
- ✦ **Saved Report History** — Every generated AI report is stored and accessible from the user dashboard for later review.
- ✦ **Secure Authentication** — Email + password sign-up with JWT sessions; all AI and watchlist endpoints are auth-gated.
- ✦ **SEBI & SEC Disclaimer** — Every AI output surfaces data sources and a regulatory disclaimer, keeping the platform education-grade.
